FOR IMMEDIATE RELEASE

BRAND NEW IMPACT BRANCH OPEN IN HAMMOND, IN

LAKE FOREST, IL (Jan. 11, 2017) — Impact Networking, LLC, ...

For Impact Networking and its employees, 2017 has already been a year marked by roaring success and targeted, fast-paced expansion. The company acquired Illinois Paper & Copier Company, thereby increasing its staff to 350 employees, has become a Ricoh partner, and has set ambitious goals for this year and the year to come. One of the most exciting parts of this growth and expansion is the opening of a new Impact branch in Hammond, IN. Impact is thrilled to announce the grand opening of the Hammond branch in a brand-new, modern facility located on Carlson Drive.

As an organization that has experienced 27% year over year growth since being established in 1999, Impact is no stranger to organic, internal expansion. In its eighteen years in the business, Impact has gone from a four-person operation to a thriving mid-sized company with branches throughout the Midwest. This growth provides Impact with ever-evolving methods for providing increasingly effective solutions to its growing client base. This growth has been evident in the establishment of branches throughout Chicagoland, the Illinois Valley, Wisconsin, and Indiana.

Impact has leveraged its unique business model, corporate culture, and local, go-to-market strategy to become a major player in the business process automation space within the State of Indiana. The Indianapolis branch is a thriving and crucial location for Impact operations. Looking to the future, Impact made plans to establish another branch in the state—this time in Hammond, IN. Located near the southernmost end of the Chicago metropolitan area, Hammond is a growing and thriving city that serves as an excellent location for expansion and future development.

This new location will be the focal point of Impact services throughout the Hammond area, introducing Hammond to Business Process Automation, Document Management, Design & Marketing, and Managed IT services from the Midwest's largest office technology provider. Impact acknowledges this incredible opportunity to offer its one-source solutions in a brand-new market, helping Hammond area business manage their operations costs and utilize cutting-edge technology to increase efficiency and achieve business goals.

While business operations have already begun at the new Hammond location, there will be an official Grand Opening and Technology Showcase on February 20th, 2017. This will be an excellent opportunity for business and community representatives to tour the new facility while learning more about Impact products and services. A catered lunch will be provided, and this event will present plenty of networking opportunities for businesspeople in the Hammond area. Impact looks forward to a bright and thriving future in Hammond, and is fully committed to becoming a valued business partner and member of the community.
